

NO ONE SAW IT COMING. NO ONE THOUGHT HE WAS IN ANY DANGER THAT NIGHT.

“If They Had Known”

Knowing these 5 things could help save your life or the life of a friend.

①

MISUSING OR ABUSING PRESCRIPTION DRUGS CAN BE FATAL

If you share, steal, or purchase prescription drugs online you're putting yourself at risk. Remember, Fentanyl laced prescriptions are sold online and on the street.

②

PRESCRIPTION DRUGS ARE NOT FOR PARTYING OR SELF-MEDICATING

Whether it's your first time you have misused prescription medication while partying or done it before, you or your friend are putting yourself at risk. Someone could die.

③

BE AWARE OF THE CONSEQUENCES OF A TOXIC MIX

Mixing prescription drugs with alcohol can also kill you.

④

DON'T HESITATE TO GET HELP, EVERY MINUTE COUNTS

Don't assume it's "ok" to let someone sleep it off and don't ever leave someone alone. Help your friend if you think your friend is in trouble.

Call 911 immediately. Don't worry about getting in trouble. You might be saving a life.

⑤

REMEMBER HOW YOUR CHOICES WILL IMPACT EVERYONE AROUND YOU

It's not worth the risk. Losing a friend or a family member changes everything forever.
